Psychotherapy for Schizophrenia in the Year 2030: Prognosis and Prognostication	S94
<i>William Spaulding and Jeffrey Noltung</i>	

About the Cover

The cover art titled “Two Angels” is by Suzanne Schneider (courtesy National Alliance for Research on Schizophrenia and Depression Artworks). According to the artist she has been interested in art since she was a little girl. She stated that all her interests are art-oriented except for her love for the Bible. Without her deep religious convictions she feels she would never have made it through the tough times. She has been in the hospital 30 times since she was 18 years old. However, in the last ten years she had had only one episode.
