SUBSCRIPTION INFORMATION
The Schizophrenia Bulletin is published quarterly and is available on subscription from the Superintendent of Documents, Government Printing Office, Washington, DC 20402. A subscription form is provided on the last page of the issue. Please make check or money order payable to the Superintendent of Documents. Back issues, when available, are sold at the single copy price.
Changes of address and complaints about nonreceipt of issues should be sent to the Superintendent of Documents, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402-9375, and should include the old address, preferably a mailing label, as well as the new address.
Contents

This is Volume 20, No. 1, 1994, of the Schizophrenia Bulletin, a quarterly periodical prepared by the Division of Clinical Treatment Research, National Institute of Mental Health (NIMH), National Institutes of Health. The Bulletin's purpose is to facilitate the dissemination and exchange of information about schizophrenia. Material contained in the Bulletin, including viewpoints expressed by NIMH staff members, does not necessarily reflect the opinions, official policy, or position of NIMH. All articles appearing in the Bulletin, except where otherwise noted, are in the public domain and may be reproduced or copied without requesting the author's permission.

At Issue

The Need to Integrate Neuropsychological and Experimental Schizophrenia Research
Mark R. Serper and Philip D. Harvey

Response to Serper and Harvey
Milton E. Strauss and Ann Summerfelt

Letters to the Editor

Steven O. Moldin and L. Erkenmeyer-Kimling

Impaired Attention, Genetics, and the Pathophysiology of Schizophrenia
Barbara A. Comblatt and John G. Keilp

Eye Tracking and Schizophrenia: A Selective Review
Deborah L. Levy, Philip S. Holzman, Steven Matthysse, and Nancy R. Mendell

Event-Related Potentials (ERPs) as Indicators of Risk for Schizophrenia
David Friedman and Elizabeth Squires-Wheeler

Are There Neurochemical Indicators of Risk for Schizophrenia?
John G. Csemansky and John W. Newcomer

Structural Brain Abnormalities as Indicators of Vulnerability to Schizophrenia
Tyrone D. Cannon and Elysa Marco

Neuropsychological Risk Indicators for Schizophrenia: A Review of Family Studies
William S. Kremen, Larry J. Seidman, John R. Peppe, Michael J. Lyons, Ming T. Tsuang, and Stephen V. Faraone

**About the Cover**

The *Schizophrenia Bulletin* features art done by current and former mental hospital patients. The drawing that appears on the cover of this issue was done by Kenneth S. Girard. The artist, a resident of Baltimore, Maryland, has provided his feelings about his artwork.

I hope your readers find my drawing pleasing. Perhaps it is best not to try to explain it—art like people cannot always be explained. Hopefully, my art can be enjoyed as being expressive and emotive. Perhaps labels are best reserved for insurance forms.
