In December 1969, the first issue of the *Schizophrenia Bulletin* was issued on an experimental basis. Its appearance was followed over the next 4 years by 10 additional experimental issues. On September 25, 1974, permission was granted by the Office of Management and Budget for the *Bulletin* to be established as a regular quarterly publication. The Secretary of Health and Human Services has determined that the publication of this periodical is necessary in the transaction of the public business required by law of this Department. Use of funds for printing this periodical has been approved by the Office of the Assistant Secretary for Public Affairs through September 30, 1995.

The subscription price, covering four issues per year, is $17.00 domestic and $21.25 foreign. The single copy price is $9.00 domestic and $11.25 foreign. This price was in effect at time of printing. Prices are subject to change. We urge those intending to subscribe or renew to complete the subscription order form (see below) as soon as possible. Your check or money order should be made payable and mailed, together with your order form, to the Superintendent of Documents, New Orders, P.O. Box 371954, Pittsburgh, PA 15250-7954.

Notices of change of address and complaints about nonreceipt of issues should be sent to the Superintendent of Documents, Mail List Branch, Mail Stop: SSOM, Washington, DC 20402-9375, and should include the old address, preferably a mailing label, as well as the new address.
Instructions to Authors

Submissions to the Schizophrenia Bulletin should be sent to:

David Shore, M.D.
Editor-in-Chief
Schizophrenia Bulletin
National Institute of Mental Health
5600 Fishers Lane, Rm. 18C-06
Rockville, MD 20857

The editors will consider critical reviews of the literature, articles reporting original observations in laboratory or clinical research, short reports of preliminary or negative research results, first person accounts by patients or family members, and letters to the editor. News items describing research and training programs or reporting professional activities in schizophrenia are also welcome. Photographs of art done by current or former mental hospital patients may be submitted for possible reproduction on the cover of the Bulletin; the artist must be willing to grant permission for publication of his or her work, but his or her anonymity will be preserved if he or she so wishes.

All materials published in the Schizophrenia Bulletin are in the public domain unless otherwise noted.

Preparation of Manuscript

A detailed set of instructions for manuscript preparation is available from the Research Projects and Publications Branch (see address above).

Text and Tables: Type the manuscript (double space) on one side of the page, and submit in quadruplicate—one copy an original and the other three photocopies. Present each table on a separate sheet. Note the table number in the text immediately after the paragraph in which it is described.

Abstract: Provide a brief abstract of the manuscript. The abstract should not exceed 175 words in length.

Illustrations: Submit one copy of each chart, graph, or other illustration in reproducible form (either original drawings in black india ink or glossy prints). Refer to all illustrative materials as text figures. Type the figure number and legend for each on a separate sheet.

References: Include a list of all articles and books cited in the text. Arrange alphabetically by major author. When referring to these sources in the text, place the authors’ names and the date of publication in parentheses immediately after the idea referenced. If more than one source is cited, list in chronological order by date of publication. (If authors’ names are used in the same sentence, place only the date of publication in parentheses.) Provide page numbers for all quotes. Spell out all journal titles. Bibliographic style should follow that used in articles in this issue.

Footnotes: Use footnotes to clarify textual material, and indicate them by superior figures in the text. Insert footnotes as separate paragraphs immediately following the paragraphs in which they are mentioned.

Author Identification: Include your own and each author’s official title and academic degrees. Specify the address to which reprints should be sent.
In This Issue

Detailed Table of Contents ........................................... i
At Issue ........................................................................... 1
The Multidimensionality of Schizotypy—
M.G. Vollema and R.J. van den Bosch .......................... 19
