In December 1969, the first issue of the *Schizophrenia Bulletin* was issued on an experimental basis. Its appearance was followed over the next 4 years by 10 additional experimental issues. On September 25, 1974, permission was granted by the Office of Management and Budget for the *Bulletin* to be established as a regular quarterly publication. The Secretary of Health and Human Services has determined that the publication of this periodical is necessary in the transaction of the public business required by law of this Department. Use of funds for printing this periodical has been approved by the Director of the Office of Management and Budget through September 30, 1999.

This is Volume 25, No. 2, 1999, of the *Schizophrenia Bulletin*, a quarterly periodical prepared by the Office of Scientific Information, National Institute of Mental Health (NIMH), National Institutes of Health. The *Bulletin*’s purpose is to facilitate the dissemination and exchange of information about schizophrenia. Material contained in the *Bulletin*, including viewpoints expressed by NIMH staff members, does not necessarily reflect the opinions, official policy, or position of NIMH. All articles appearing in the *Bulletin*, except where otherwise noted, are in the public domain and may be reproduced or copied without requesting the author’s permission.

### Contents

**Letters to the Editor** .................................................. 193

**Interventions for Neurocognitive Deficits: Editor’s Introduction** .................................................. 197

*Michael Foster Green*

---

Karon Dawkins, Jeffrey A. Lieberman, Barry D. Lebowitz, and John K. Hsiao

First Person Account: Talking Through Medication Issues: One Family's Experience ................................................................. 407
Susan B. Mann

About the Cover
The Schizophrenia Bulletin features art done by current and former mental hospital patients. The painting that appears on the cover of this issue was done by Lisa Perini. She calls her painting “Gatti Innamorati (Cats in Love)” and sends the following thoughts.

Man must respect nature. Man, animals, nature; they are all just one thing.
