In December 1969, the first issue of the *Schizophrenia Bulletin* was issued on an experimental basis. Its appearance was followed over the next 4 years by 10 additional experimental issues. On September 25, 1974, permission was granted by the Office of Management and Budget for the Bulletin to be established as a regular quarterly publication. The Secretary of Health and Human Services has determined that the publication of this periodical is necessary in the transaction of the public business required by law of this Department. Use of funds for printing this periodical has been approved by the Director of the Office of Management and Budget through September 30, 2003.

This is Volume 28, No. 3, 2002, of the *Schizophrenia Bulletin*, a quarterly periodical prepared by the Office of Communications and Public Liaison, National Institute of Mental Health (NIMH), National Institutes of Health. The Bulletin's purpose is to facilitate the dissemination and exchange of information about schizophrenia. Material contained in the Bulletin, including viewpoints expressed by NIMH staff members, does not necessarily reflect the opinions, official policy, or position of NIMH. All articles appearing in the Bulletin, except where otherwise noted, are in the public domain and may be reproduced or copied without requesting the author's permission.

About the Cover

The Schizophrenia Bulletin features art done by current and former mental hospital patients. The painting on the cover of this issue was done by Monique Lee and is entitled “Self Portrait.” Ms. Lee provided us with the following description of her artwork: “This was done while in the hospital. We were assigned to do a self portrait with a colorful background. I wanted to express the many conflicting beliefs and ideas and experiences that are a part of a person. Most people just drew the face separate but on top of the background. I wanted to combine the two.”
