About the Cover

The cover artwork is by Rodger Casier. The artist was born and raised in Santa Barbara, California. He traveled with his family extensively in Europe and attended French and Spanish language academies. He graduated from Santa Barbara College and later studied printmaking and graphic design at San Jose State University. Mr. Casier consistently experiments and develops new techniques for line, form, and texture. He enjoys working with mixed media. He has endured many crises and changes in his life. Through it all, however, he has sustained his desire and ability to create art, to study foreign languages, and to write about his life.
