Symptoms of schizoaffective disorder.

I have been concentrating on painting women in dresses in scenic backgrounds, but I have painted in many various styles over the years. I feel very fortunate to have the ability to make art because it provides an outlet for my symptoms of schizoaffective disorder.

This painting is just one of hundreds of paintings I have created over the past 20 years. During the past 5 years I have been concentrating on painting women in dresses in scenic backgrounds, but I have painted in many various styles over the years. I feel very fortunate to have the ability to make art because it provides an outlet for my symptoms of schizoaffective disorder.

About the Cover

Chris Stuber
